

Antique Telescope, Dollond, 2" Refracting Library Scope in Mahogany Case c.1800

DESCRIPTION

Our Stock # R0667 This is an antique telescope in mahogany case dating to circa 1800 by renowned optical instrument maker Dollond.

- Clear sharp optics with 2" achromatic objective glass
- Additional solar observation lens (We DO NOT advise using without scrutiny first)
- Rack and pinion fine focus
- Terrestrial or astronomical use (upright image)
- Brass pillar mount with folding legs and spade feet
- Fluid movement in horizontal and vertical planes
- Signed 'Dollond London' on the collar
- Original mahogany case

A super example of a library scope, perfectly good for modern observation.
