

Antique 3 Draw Telescope, English Brass, Terrestrial Instrument, Victorian, 1880

DESCRIPTION

Our Stock # 25470

This is an antique 3-draw telescope. An English, terrestrial navigational instrument in brass and walnut, dating to the Victorian period, circa 1880.

Perfect for bird watching, landscape appreciation, wildlife, or maritime observation. Equally suitable for observing the night sky.

- A quality three-draw example, combining elegant design with practical function
- Crafted in brass, offering a bright, lightly patinated appearance with appealing aged character
- Primary barrel in walnut, showing fine grain detail and warm caramel hues
- Smooth-action draw tubes extend to full length with ease and precision
- Fitted with a 38mm objective lens, providing clear and generous viewing
- Includes an integrated sliding sun shade, enhancing clarity in bright light
- Eye cup protected with a sliding dust cover when not in use
- Supplied with a London Fine oak and brass 'Captain's Stand' for display
