

## Small Antique 3 Draw Telescope, English Brass, Fruitwood, Terrestrial, Victorian

### DESCRIPTION

Our Stock # 25465

This is a small antique three draw telescope, an English brass and fruitwood terrestrial refractor, dating to the late Victorian period, circa 1900. A delightfully tactile optical instrument, with fine brass barrels and a richly toned wooden main tube.

Perfect for bird watching, landscape appreciation, wildlife, or maritime observation. Equally suitable for observing the night sky.

<li class="p1">Charming Victorian period three draw telescope, circa 1900

<li class="p1">Bright brass barrels with rich golden tones, showing gently aged character

<li class="p1">Fruitwood primary barrel with warm caramel hues and fine grain interest

<li class="p1">Removable dust cap protects the 25mm diameter primary objective lens

<li class="p1">Flared eyecup fitted with a sliding dust cover for protection when not in use

<li class="p1">Smooth draw action provides a useful extended length, ideal for terrestrial observation

<li class="p1">Compact size and appealing form, perfect for a collector's cabinet, desk, or field use

<li class="p1">Supplied with a London Fine oak and brass 'Captain's Stand' for display
