

Antique Helmet Fire Bucket, English, Copper Scuttle, Fireside Bin, Victorian

DESCRIPTION

Our Stock # 26036

This is an antique helmet fire bucket. An English, copper coal scuttle or fireside bin, dating to the late Victorian period, circa 1885.

- Delightful helmet shaped scuttle, presenting the traditional form
- Displays a desirable aged patina with a gently time-worn appearance
- Copper bucket shows rich colour and hand crafted charm
- Suitable for all fuel types, including coal, kindling and logs
- Rolled handle clasped by shaped brackets with rivet bonding
- Tactile handle to rear with rolled pull over a shaped back plate
- Raised on a tapered circular base with beaded finish

This is an attractive antique helmet fire bucket, with rich copper hues to enhance the fire place in any home. Delivered ready for the warmth of the fireside.
