

Victorian Turner's Chair

DESCRIPTION

Our Stock # LFA-1122 This is an antique Turner's or 'thrown' chair, a Victorian example of the more exaggerated C16th type. Sculptural by design and solidly made from English oak this chair has good colour and patina coupled with fine, deep relief carving to the rear back support and wings. The ring turned rails and legs that support triangular seat are of generous proportion as are the bobbin turned arms that unite the front legs directly to the rear back rest. Striking, solid and strangely comfortable this is a fine example of its type. Solid joints and construction. Delivered waxed & polished ready for the home.
