

Antique Watchmaker's Lathe, Swiss, Brass, Copper, Precision Instrument, C.1900

DESCRIPTION

Our Stock # 18.7161

This is a fantastic antique watchmaker's lathe. A Swiss, quality brass, copper and stainless steel precision instrument, dating to the late 19th century, circa 1900.

- An exquisite and rare antique lathe with quality accessories and carry case
- Displaying a desirable aged patina - wonderfully intact and well cared for
 - Many brass parts show appealing golden tones, with contrasting copper and stainless pieces
- Green painted carry case shows decades of natural wear, commensurate with age
 - Fascinating rotary mechanism with smooth action - the gears being particularly satisfying
- Operating upon an adjustable rack for watches and other projects of varying size
- Supplied with a generous variety of accessories and tools within the case
- The case benefits from a pair of carry handles and inset working lock — key present

This is a captivating antique watchmaker's lathe, set to delight those of a scientific interest or fascinate those who view its precision excellence. Delivered waxed, polished and ready for the collector or appreciator of quality tools.
