

Vintage Scientist's Field Microscope, English, Brass, Pocket Instrument, C.1930

DESCRIPTION

Our Stock # 18.7485

This is a vintage scientist's field microscope. An English, brass, pocket instrument, dating to the early 20th century, circa 1930.

- Superb brass instrument with fine colour and desktop display appeal
- Displays a desirable aged patina and in good order
- Polished brass beams with rich golden hues
- Mahogany carry case replete with pair of specimen tongs
- Sliding adjustable eye-piece
- Slide viewing platform within recess
- Rotating mirror to adjust available light projection
- Articulates through 90 degrees for ease of use

This is a fascinating, portable vintage scientist's field microscope. Sure to appeal to those of a scientific mind and ideal as a desk ornament. Delivered polished and ready for the home.
