

Antique Ship's Bulkhead Barometer, English, Maritime Instrument, Edwardian, 1910

DESCRIPTION

Our Stock # 18.7927

This is an antique ship's bulkhead barometer. An English, brass and oak maritime weather instrument, dating to the Edwardian period, circa 1910.

- Delightfully presented maritime barometer
- Displays a desirable aged patina throughout
- Polished brass bulkhead case presents bright golden tones
- Set behind glass, the cream coloured dial shows patination commensurate with age
- Usefully sized for ease of reading with a diameter of 13.5cm (5.25")
- Elegant annotations show the current weather condition
- Secondary hand can be set to show the change since the previous day
- Reads 'Aneroid Barometer, Made in England'
- Mounted upon a quality oak back plate with fine grain interest
- The plate presents rich caramel hues beneath the wax polish finish
- Dressed with a pair of mounting loops for ease of hanging
