

Tall Vintage Bank of Pigeon Holes, German, Steel, 20 Door, Industrial Cabinet

DESCRIPTION

Our Stock # 18.8740

This is a tall vintage bank of pigeon holes. A German, steel 20 door slope front industrial machinist's cabinet, dating to the mid 20th century, circa 1950.

- Fascinating Continental pigeon holes, with a weathered appearance
- Displaying a desirable aged patina commensurate with industrial use
- Painted steel with light green hues, patinated throughout
- Each locker door dressed with inset locks – upper 3 in working order, keys presents
- Worker's names hand-written upon the reverse of several doors
- Raised up to a comfortable height upon four bracket feet

This is a tall vintage bank of pigeon holes, displaying signs of use within an industrial machinist's environment. 20 useful lockers ideal for hosting collectibles or tools. Delivered ready to use.
