

Antique Pluviometer Set, English, Copper, Meteorological, Rain Gauge, Victorian

DESCRIPTION

Our Stock # 18.8772

This is an antique pluviometer set. An English, copper and glass meteorological rain gauge, dating to the Victorian period and later, circa 1900.

- Fascinating and comprehensive rain measurement device
- Displaying a desirable aged patina - finely weathered with age
- Patinated copper shows bright amber and verdigris hues
- Aged glass bottle graced with characterful mottled appearance
 - In five parts, with the funnel, main cylinder, internal reservoir, glass bottle and measuring tube
- Sitting atop the main cylinder, the funnel engraved 'Rain Gauge 5" with HH & P, London' maker's mark
- Internal reservoir in copper dressed with a small carry handle
- Glass bottle marked 'E 40' to the base
- Later measuring tube by PSL with a diameter of 5"
- Scale etched to glass from 0 to 50
- Glass tube in very good order, replete with storage box
