

Vintage Decorative Ammonite, African, Opalized Fossil, Display, Specimen, C.1970

DESCRIPTION

Our Stock # 18.9056

This is a vintage decorative ammonite. An African, opalized fossil on display plinth, dating to millions of years ago, polished and presented circa 1970.

- Natural beauty and decorative interest to this striking fossil specimen
- Displays a desirable aged patina and in good order
- Wonderfully intact, the ammonite fossil presents the full shell form
- Fossilised during the Cretaceous period millions of years ago
- Excellent dendritic patterns in the form of fine white sutures
- Translucent to direct light, revealing warm ember hues
- Presented neatly upon a wooden base in the rustic manner
- Can be lifted from the plinth to enjoy the polished tactility

This is an exceptional vintage decorative ammonite, with beautiful detail and a polished, tactile finish. Delivered ready to display.
