

Vintage Carved Decorative Ammonite, African, Fossil, Display, Cretaceous, C.1970

DESCRIPTION

Our Stock # 18.9057

This is a vintage carved decorative ammonite. An African, opalized fossil on display plinth, dating to Cretaceous period millions of years ago, polished and presented circa 1970.

- Skilfully carved ammonite with fine decorative appeal
- Displays a desirable aged patina and in good order
- Beautifully polished shell, the hand carved ammonoid form adding a tentacle effect
- Fossilised roughly 100 million years ago, during the Cretaceous period
- Accentuated with dendritic patterns from the fine white sutures
- Lightly translucent to the edge when viewed in direct light
- Presented upon a wooden base in the rustic manner
- Removable from the plinth to enjoy the tactile polished finish

This is a striking vintage carved decorative ammonite, with beautiful detail and a lustrous polished finish. Delivered ready to display.
