

Antique Cased Microscope, English, Scientific Instrument, Watson of London, 1920

DESCRIPTION

Our Stock # 18.9129

This is an antique cased microscope. An English, enamelled metal and brass scientific instrument by W. Watson of London, dating to the early 20th century, circa 1920.

- Attractive and appealing scientific instrument, of good quality
- Displays a desirable aged patina and in good order
- Black enamelled frame presents wonderful tonality, with contrasting warm golden brass
- Stained pine carry box shows rich russet hues and benefits from a working lock – key present
- Interchangeable eyepiece tube over a rack and pinion main focus rail
- Single magnification nosepiece resides above a square stage with mechanical slide holder
- Four accessory objective lenses resting within a removable mount
- Bright, good quality rotating mirror beneath the slide holder
- Engraved 'Service' with the W. Watson & Sons maker's mark beneath
- Further engraved with the serial number 25840, traced via records to the 1919/1920 period
- Included service record card dated to 21/1/21 with magnification details
