

Antique Country House Coal Scuttle, English, Copper, Fireside Bucket, Victorian

DESCRIPTION

Our Stock # 18.9679

This is an antique country house coal scuttle. An English, patinated copper fireside store or fuel keeper, dating to the Victorian period, circa 1870.

- Delightfully weathered, adding character to the fireside
- Displays a desirable aged patina throughout
- Aged copper presents verdigris and metallic hues
- Rolled handle mounted upon tri-form backplates with shaped handle to rear
- Raised upon a tiered concentric foot of gently tapering form

This is a charming antique country house coal scuttle, with a distinctive, naturally time-weathered appearance. Suitable for all fuel types. Delivered ready for the fireplace.
