

Vintage Books, Fungi Interest, English Language, Biology, Reference, Scientific

DESCRIPTION

Our Stock # 18.9720

This is a set of 3 vintage Fungi reference books. In English, hard bound scientific biology titles, published in the mid 20th century.

Comprising the following three titles: A Manual of Soil Fungi (1945) Iowa, USA - 392 pages; The Advance of the Fungi (1940) London - 488 pages; and Handbook of the Larger British Fungi (1951) London - 222 pages.

- Each presented in good vintage condition - intact with lightly time-worn appearances

- Hard bound in green cotton, gilt titling to two books
- Biological illustrations accentuate each title throughout

This is a fascinating set of 3 fungi reference books, with a mid-century overview from both sides of the Atlantic. Delivered ready to enjoy.
