

Antique Gimballed Compass, English, Brass Scientific Instrument, Victorian, 1900

DESCRIPTION

Our Stock # 18.9608

This is an antique gimballed compass. An English, brass and glass decorative scientific instrument for display, dating to the late Victorian period, circa 1900.

- Fascinating decorative compass, replete with carry case
- Displays a desirable aged patina and in good original order
- Quality brass case presents a time-worn weathered appearance
- Clear, bright glass dial in very good order, free of marks or loss
- Set upon a gimbal, with locking mechanism to the base
- Lift-up viewing sights sit neatly above the dial when not in use
- Maker's label to the dial for F. Robson of Newcastle Upon Tyne
- Service label to the case from the A.G. Thornton Paragon Works in Manchester

This is a charming antique gimballed compass, ideal for display. Well suited to the desk of those with an engineering interest or collector of Victorian instruments. Delivered ready to enjoy.
